

# Rainbow Earrings

Create 3 pairs of bespoke transparent earrings with this easy resin project kit.

## YOU WILL NEED:

- CHEMSET® Resin Rainbow Earring Kit\*
- Digital scales accurate to 0.01g
- Sticky tape or book binding
- Plastic or metal box

## INSTRUCTIONS:

Place a piece of tape or book binding sticky side up on the acrylic block.

Place the earring frames on top of the tape and press them down evenly to create a good seal.

Secure the tape to the block using more tape or blu-tac. This will make it easier to move it around if you need to.

Make sure the earrings are lying completely flat.

Place a mixing cup on your scales then re-zero the scales.

Pour 2g of a coloured or clear resin into the mixing cup.

Add 1g hardener into the mixing cup.

Stir carefully with a mixing stick until fully mixed making sure you get into the edges of the cup.

Let the enamels rest for a few minutes, this allows any bubbles caused by mixing to dissipate.

Create four mixes of resin in total; blue, red, yellow and clear.

Using the mixing sticks drop small amounts of each resin into the earring frames making sure it doesn't overflow. You can use a cocktail stick to tease the resin into the corner or to create patterns in the resin.

If the resin is left for 20 minutes or more it becomes thicker and behaves more like a gel, this may help you create bands of colour or swirls in your resin pieces.

You will have approximately 45 to 60 minutes to use the mixed resin. The amount of usable time will vary according to the amount you have mixed and the temperature of the room.

Once you are happy with the design, cover with a plastic or metal box (to protect from dust) and leave in a warm place (min. 20°C) to cure overnight.

When the resin has fully cured carefully peel off the tape.

To complete the earrings, twist open the eye of the ear hook, hook onto the earring frame and close the hook to finish.

\*The CHEMSET® Resin Rainbow Earring Kit is available to purchase from [www.brightenamels.co.uk](http://www.brightenamels.co.uk)>where-to-buy>starter packs and contains:  
6 each teardrop earring blanks & earring hooks, 20g CHEMSET ES 8103 Base resin, 20g each CHEMSET ES 8552 Transparent Yellow, CHEMSET ES 8555 Transparent Red and CHEMSET ES 8558 Transparent Blue resins, 40g CHEMSET ES 8204 Hardener with pipette, 3 each miniature mixing pots and mixing sticks
